CLASSIC PYRAMID FOLD

1. Fold the napkin in half diagonally, and position it so the open edge is facing away from you.

2. Fold the right corner end up to the top edge, then do the same on the left side, creating a diamond shape.

3. Turn the napkin over, with the open end still facing away. Fold the far point of the diamond towards you.

4. Turn the napkin over again, now keeping the open end towards you.

5. Now fold the napkin in half along the center seam. The neater your folds, the sturdier your pyramid will be.
LAYERED DIAMOND FOLD

1. Place the napkin flat on the table in front of you. Fold it in half so the open end is facing you.

2. Fold the napkin into quarters so that the open corner is at the bottom right.

3. Fold the top-most napkin layer in half diagonally, up and to the left.

4. Repeat with all four napkin layers, stopping slightly before the last fold to create a staggered effect.

5. Now fold both sides under the napkin and press flat. You're finished!
CANDLE NAPKIN ROLL

1. Fold the napkin in half diagonally with the open end pointing away from you.

2. Fold the long edge of the napkin over about one inch. Press this fold well.

3. Flip the napkin over so the folded edge is facing the table. Keep the edge folded flat.

4. Roll the napkin into a cylinder starting at one end and rolling straight and tight towards the other end.

5. Tuck the tail end of the roll into the cuff of the base on the back of the napkin. It will stand on its own.
EASY SILVERWARE ROLL

1. Lay the napkin on the table and fold it in half diagonally.

2. Turn the napkin so the folded edge is facing you. Place the silverware inside the long edge.

3. Fold each side in over the silverware, keeping the silverware straight.

4. Roll the silverware tightly in the napkin. Keep the edges straight.

5. You can secure the roll with ribbon, twine, or a napkin ring.
SILVERWARE POCKET

1. Fold the napkin in half, then in quarters, with the open corner facing the top left.

2. Bring the top-most layer’s corner down diagonally. Fold and press.

3. Flip the napkin over so the open corner is now facing the top right.

4. Fold the right side back about 1/3 of the way across the back. Repeat with the left side and tuck it in.

5. Turn the napkin back over, keeping the edges nice and straight, and insert the silverware.
